

Chest and Lung (27)

- Mild Right Pneumothorax
- Moderate Right Pneumothorax
- Severe Right Pneumothorax
- Mild Left Pneumothorax
- Moderate Left Pneumothorax
- Severe Left Pneumothorax
- Mild Left Pleural Effusion
- Moderate Left Pleural Effusion
- Severe Left Pleural Effusion
- Mild Right Pleural Effusion
- Moderate Right Pleural Effusion
- Severe Right Pleural Effusion
- Mild Bilateral Pleural Effusion
- Moderate Bilateral Pleural Effusion
- Severe Bilateral Pleural Effusion
- Pulmonary Edema
- Right Lung Consolidation
- Mild Septated Lung
- Moderate Septated Lung
- Severe Septated Lung
- Empyema
- Pleural Nodule
- Diaphragm Nodule
- Pleural Effusion: Exudate
- Thickened Pleura
- COVID-19 Case 1 Thickened Irregular Pleura
- COVID-19 Case 2 Small Bilateral Consolidation
- COVID-19 Case 3 Extensive Small Bilateral Consolidation
- COVID-19 Case 4 Large Consolidation in the Right Lung

Cardiac (7)

- Tamponade
- Right Ventricular Failure
- Left Ventricular Failure
- Aortic Stenosis
- Mitral Regurgitation
- Mitral Stenosis
- Pulmonary Embolism

Gastrointestinal/other (7)

- Appendicitis
- Ascites
- Bladder distention with Foley Catheter
- Empty Stomach
- Full Stomach with Fluid
- Insignificant Fluid
- Full Stomach with Food

Aorta (5)

- Small Fusiform Aneurysm
- Medium Fusiform Aneurysm
- Large Fusiform Aneurysm
- Saccular Aneurysm
- Dissecting Aneurysm

Hepato-biliary (9)

- Contracted Gallbladder
- Gallbladder Calculus
- Calculus Cholecystitis
- Acalculus Cholecystitis
- Adenomyomatosis
- Dilated Common Bile Duct
- Dilated Common Bile Duct with Calculus
- Liver Metastases
- Pancreatic Mass

IVC Evaluation (3)

- Underfilled IVC (Normal Heart)
- Distended IVC (RVF)
- Underfilled IVC (Hypovolemic Heart)

Renal and GU (13)

- Calculus in the Right Kidney
- Multiple Calculi in the Right Kidney
- Appendicitis
- Ascites
- Bladder distention with Foley Catheter
- Moderate Hydronephrosis in the Right Kidney and a Large Pelvic Mass
- Mild Hydronephrosis in the Right Kidney
- Moderate Hydronephrosis in the Right Kidney
- Severe Hydronephrosis in the Right Kidney
- Mild Hydronephrosis in the Left Kidney
- Moderate Hydronephrosis in the Left Kidney
- Severe Hydronephrosis in the Left Kidney
- Calculus in the Left Kidney
- Moderate Hydronephrosis with a Calculus in the Right Kidney
- Severe Hydronephrosis with a PUJ Obstruction in the Right Kidney
- Renal Cell Carcinoma in the Right Kidney

Multiple System Pathologies (12)

- Mild Fluid in Morison's Pouch and Moderate Fluid in the Left Subphrenic Space
- Severe Fluid in Morison's Pouch, Moderate Fluid in the Pouch of Douglas, and Severe Fluid in the Right Subphrenic Space
- Moderate Fluid in Morison's Pouch, and Severe Fluid in the Pouch of Douglas
- Mild Fluid in the Left Subphrenic Space, Mild Fluid in the Splenorenal Space, and Moderate Fluid in the Pouch of Douglas
- Mild Right Pleural Effusion, Mild Left Pleural Effusion, and Pelvic Mass
- Moderate Right Pleural Effusion, Mild Left Pleural Effusion, and Pelvic Mass
- Severe Right Pleural Effusion, Severe Left Pleural Effusion, and Pelvic Mass
- Mild Right Pleural Effusion, Mild Left Pleural Effusion, Liver Metastases and Pelvic Mass
- Moderate Right Pleural Effusion, Moderate Left Pleural Effusion, Liver Metastases and Pelvic Mass
- Severe Right Pleural Effusion, Severe Left Pleural Effusion, Liver Metastases and Pelvic Mass
- Mild Fluid in Morison's Pouch, Decidualized Endometrium, and Fluid in the Pouch of Douglas
- Mild Fluid in Morison's Pouch and Ruptured Ectopic Pregnancy

Trauma (30)

- Mild Fluid in the Right Subphrenic Space
- Moderate Fluid in the Right Subphrenic Space
- Severe Fluid in the Right Subphrenic Space
- Mild Fluid in Morison's Pouch
- Moderate Fluid in Morison's Pouch
- Severe Fluid in Morison's Pouch
- Mild Fluid in the Left Subphrenic Space
- Moderate Fluid in the Left Subphrenic Space
- Severe Fluid in the Left Subphrenic Space
- Mild Fluid in the Splenorenal Space
- Moderate Fluid in the Splenorenal Space
- Severe Fluid in the Splenorenal Space
- Mild Fluid in the Pouch of Douglas
- Moderate Fluid in the Pouch of Douglas
- Severe Fluid in the Pouch of Douglas
- Mild Complex Fluid in the Right Subphrenic Space
- Moderate Complex Fluid in the Right Subphrenic Space
- Severe Complex Fluid in the Right Subphrenic Space
- Mild Complex Fluid in Morison's Pouch
- Moderate Complex Fluid in Morison's Pouch
- Severe Complex Fluid in Morison's Pouch
- Mild Complex Fluid in the Left Subphrenic Space
- Moderate Complex Fluid in the Left Subphrenic Space
- Severe Complex Fluid in the Left Subphrenic Space
- Mild Complex Fluid in the Left Splenorenal Space
- Moderate Complex Fluid in the Left Splenorenal Space
- Severe Complex Fluid in the Left Splenorenal Space
- Mild Complex Fluid in the Pouch of Douglas
- Moderate Complex Fluid in the Pouch of Douglas
- Severe Complex Fluid in the Pouch of Douglas

Obstetrics and Gynaecology (9)

- Ectopic Pregnancy Left Adnexa
- Ruptured Ectopic Pregnancy Left Adnexa
- Ectopic Pregnancy Right Adnexa
- Ruptured Ectopic Pregnancy Right Adnexa
- Early Pregnancy
- IUP – 6 Weeks
- IUP – 11 Weeks
- Large Pelvic Mass
- Small Pelvic Mass
